(TS//SI//REL TO USA, FVEY) **India: Support to Terrorist Attacks in Mumbai:** [REDACTED]

[REDACTED] The result of this cross community effort confirmed that Zarrar Shah and his associates conducted reconnaissance and research using Google Earth and wikimapia. Analysis of Zarrar Shah's viewing habits [REDACTED] yielded several locations in Mumbai well before the attacks occurred and showed operations planning for initial entry points into the Taj Hotel. Other locations included the adjacent *Gateway of India*, other tourist sites of interest, dams, power plants, and possible locations for boat landings.

(TS//SI//REL) Behavior analysis of viewing habits is a new capability [REDACTED]

[REDACTED] This new capability [REDACTED] yielded a complete operations plan for the attacks. Detailed analysis of Zarrar's complete viewing history has also led to other areas of interest that may be under threat of future attacks [REDACTED]
